News Release

For Immediate Release: July 24, 2017

Water shutdown scheduled for Hanamaulu area on July 27

HANAMAULU – The Department of Water (DOW) has scheduled a water shutdown for customers located on the mauka-side of Kuhio Highway, between Laulima Street and Kapule Highway in Hanamaulu. Water will be turned off on Thursday, July 27 from 9 p.m. to 5 a.m., Friday July 28; weather permitting.

The eight hour water shutdown will allow private contractor, Earthworks Pacific, Inc. to complete work on the existing control valve on the water main line in the area.

In preparation of the shutdown, affected customers are advised to take the following steps:

- Store enough water to meet your needs during the shutdown.
- Those with faulty water heaters should ensure that water heaters do not empty during the shutdown.
- Notify family, friends and neighbors that may be affected by the shutdown.
- After the water main is turned back on, air and or existing sediment may be mixed into the water causing it to appear white or discolored. This is normal, and if it occurs, customers may flush water out through an outside hose bib until the water is clear.
- To monitor updates online, visit www.facebook.com/KauaiDOW.

The DOW is providing 3 trailer-mounted water tanks with potable water for essential needs. One trailer will be located in the parking lot near the intersection of Hanamaulu Road and Kuhio Highway and 2 will be located at Kalepa Village Apartments. Customers will need to bring their own water containers.

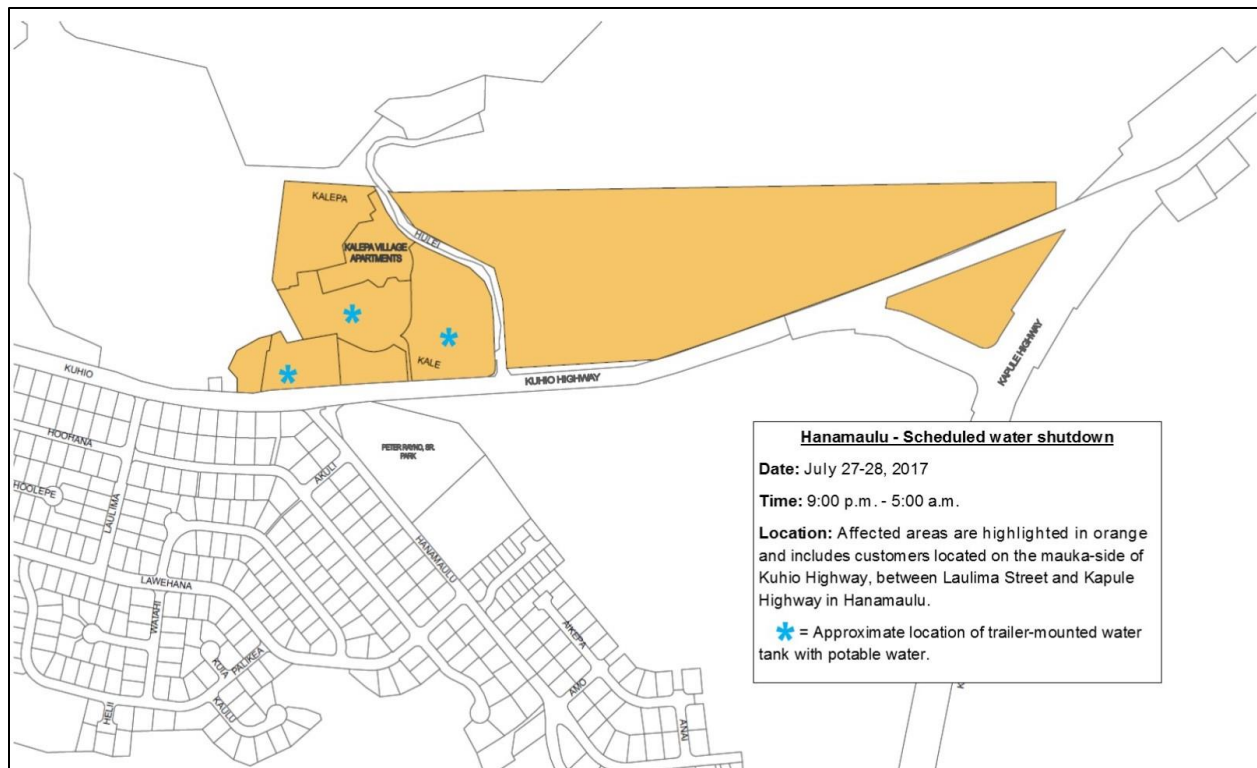

The DOW will notify affected customers via door to door notices today.

To view a map of the affected area, visit <http://kauaiwater.org/map.asp> or visit the DOW's Lihue office.

For more information please call the Department of Water at 245-5461.
